Re: PRMS Construction Update – Notice of Changes to Pick Up and Drop Off Locations

To: Parents, Guardians, Students, Staff, and visitors:

PRMS early works projects are now underway which will see site clearing, construction of a new access road, closure of the existing access road, and preparations for foundation work for the new replacement school.

Starting Thursday, April 3, 2025 the main entrance of the school will be re-routed through the courtyard area as shown below. For the remainder of the construction of the new Prince Rupert Middle School, students will be entering the school from the alternate entrance shown on the diagram below.

Due to active construction, Lisa Walters drive will be off limits for student drop off and teacher parking. Please avoid this area for the duration of the construction period (summer 2027).

Once the existing access road is closed permanently, students will use this new road to access to the school, which will be restricted to foot traffic and emergency vehicles only. Due to site constraints and pedestrian safety around the construction site,

Parents/guardians will be required to drop students off along 9th avenue or from the Civic Centre parking lot.

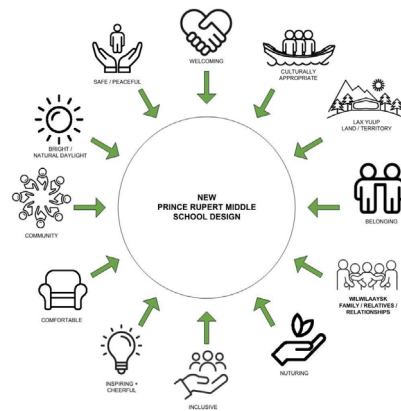

Please call or email if you have any questions.
